Two Parts Syringe

- ISO 80369-7 luer tip, compatible with standard needle
- Highly transparent barrel, graduation extended beyond
- Barrel made of polypropylene, plunger made of polyethylene
- Safe plunger backstop to prevent plunger withdrawal
- Not manufactured with silicone oil, PVC, Latex and DEHP
- Sterilized by EO or Gamma, non-toxic, non-pyrogenic
- Package: Sterile single packaging by blister, bulk
- Certificate: FDA, CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

Size	Cone	Units Per Box	Code No. (REF)
2ml	Centric	100/box	SY02C2S
5ml	Eccentric	100/box	SY05E2S
10ml	Eccentric	100/box	SY10E2S
20ml	Eccentric	100/box	SY20E2S

*Please contact us for other requirements.

Three Parts Syringe

- ISO 80369-7 luer tip, compatible with standard needle
- Highly transparent barrel, graduation extended beyond
- Rubber piston with double sealing ring allows slow operation
- Safe plunger backstop to prevent plunger withdrawal
- Not manufactured with PVC, BPA, Latex and DEHP
- Sterilized by EO or Gamma, non-toxic, non-pyrogenic
- Package: Sterile single packaging by PE bag or blister, bulk
- Certificate: FDA, CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

Size	Cone	Units Per Box	Code No. (REF)
1ml	Centric	100/box	SY01C3S
2~3ml	Centric	100/box	SY03C3S
5~6ml	Centric	100/box	SY05C3S
10~12ml	Centric/Eccentric	100/box	SY10C3S/SY10E3S
20~25ml	Centric/Eccentric	50/box	SY20C3S/SY20E3S
30~35ml	Centric/Eccentric	40/box	SY30C3S/SY30E3S

20~25ml	Centric	50/box	SY20C3L
30~35ml	Centric	40/box	SY30C3L
50~60ml	Centric	30/box	SY50C3L

*Please contact us for other requirements.

O-ring Syringe

- Silicone O-ring gasket design for clean and multiple use
- ISO 80369-7 luer tip, compatible with standard needle
- Highly transparent barrel, graduation extended beyond
- Safe plunger backstop to prevent plunger withdrawal
- Not manufactured with PVC, BPA, Latex and DEHP
- Sterilized by EO or Gamma, non-toxic, non-pyrogenic
- Package: Sterile single packaging by PE bag or blister, bulk
- Certificate: FDA, CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

Low Dead Space Syringe

- Reduces residual volume and minimizes loss of medicine
- ISO 80369-7 luer tip, compatible with standard needle
- Rubber piston with double sealing ring allows slow operation
- Safe plunger backstop to prevent plunger withdrawal
- Not manufactured with PVC, BPA, Latex and DEHP
- Sterilized by EO or Gamma, non-toxic, non-pyrogenic
- Package: Sterile single packaging by PE bag or blister, bulk
- Certificate: FDA, CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

Size	Cone	Units Per Box	Code No. (REF)
1ml	Centric	100/box	SY01C6S
2-2.5ml	Centric	100/box	SY02C6S
3ml	Centric	100/box	SY03C6S
1ml	Centric	100/box	SY01C6L
3ml	Centric	100/box	SY03C6L

*Please contact us for other requirements.

- Unibody fixed needle syringe, low dead space design
- Highly transparent barrel with high contrast black graduation
- Rubber piston with double sealing ring allows slow operation
- Safe plunger backstop to prevent plunger withdrawal
- Not manufactured with PVC, BPA, Latex and DEHP
- Sterilized by EO or Gamma, non-toxic, non-pyrogenic
- Package: Sterile single packaging by PE bag or blister, bulk
- Certificate: FDA, CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

Fixed Needle Syringe

Size	Gauge*Length (Needle)	Units per box	Code No. (REF)
1ml	23G*1"	100/box	SY01F2301
1ml	25G*1"	100/box	SY01F2501

*Please contact us for other requirements.

Syringe Tray

- BPA-Free, high quality and extremely durable
- Tray components packaged in the proper order for maximum efficiency and effectiveness
- Piston syringe offers uninterrupted action in a single-hand technique
- Designed to minimize hand slippage and subsequent contamination of barrel
- The barrel features raised, large and easy-to-read graduations
- Package: Sterile single packaging by PE bag or blister, bulk
- Certificate: FDA, CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

- Made of special polypropylene for Gamma ray sterilization
- Butyl gasket available for different medicine
- Safe plunger backstop to prevent plunger withdrawal
- Not manufactured with PVC, Latex and DEHP
- Available in various sizes and packages
- Package: Bulk, sterile single packaging by blister
- Certificate: CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

Prefilled Syringe

Size	Cone	Units Per Box	Code No. (REF)
5ml	Centric	100/box	SY05P
10-12ml	Centric	100/box	SY10P
20ml	Centric	100/box	SY20P

*Please contact us for other requirements.

- Flat type, ring type, bulb type
- Catheter tip design for better irrigation
- Ring-top design for better operation
- Transparent barrel with bold graduation offer easy readability
- Specialized silicone lubrication for smooth plunger movement
- Not manufactured with PVC, BPA, Latex and DEHP
- Package: Sterile single packaging by PE bag or blister, bulk
- Certificate: FDA, CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

Irrigation Syringe

Size	Cone	Units Per Box	Code No. (REF)
60ml	Centric	50/box	IY60CT

Disposable Needle

- Made of stainless chromium nickel steel
- Bevel length according to indication
- Compatible with all standard luer lock and luer slip tip
- Extremely smooth surface with silicone coating
- Color-coded hub confirms to ISO6009 or OEM
- Not manufactured with PVC, BPA, Latex and DEHP
- Regular wall, thin wall and extra thin wall available in various sizes
- Bulk, or EO and Gamma ray sterilization available in various sizes
- Certificate: FDA, CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

Safety Needle

- Designed to help prevent needlestick injuries
- Simple one-handed safety shield mechanism
- Audible and tactile click confirms safety activation
- Extremely smooth surface with silicone coating
- Protective arm does not obstruct visualization of injection site
- Bevel-up needle allows for low-angle injections
- Compatible with all standard luer lock and luer slip tip syringes
- Not manufactured with PVC, BPA, Latex and DEHP
- Bulk, or EO and Gamma ray sterilization available in various sizes
- Certificate: FDA, CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

Huber Needle

- Made of stainless chromium nickel steel
- Full range of gauges, lengths and bended angle
- Special needle tip design to prevent rubber fragment contamination
- Can be equipped with clamp, Y three-way, needleless connector
- Not manufactured with BPA, Latex and DEHP
- Package: Bulk, sterile single packaging
- Certificate: CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

Gauge	Length	Units Per Box	Code No. (REF)

22G	20 mm	50/box	HBN2220
22G	25 mm	50/box	HBN2225

*Please contact us for other requirements.

Blunt Needle

- Filter with different micron for option
- Made of stainless chromium nickel steel
- Conventional hub compatible with standard syringes
- Extremely smooth surface with silicone coating
- Not manufactured with PVC, BPA, Latex and DEHP
- Package: Bulk, sterile single packaging
- Certificate: FDA, CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

Gauge	Length	Units Per Box	Code No. (REF)

Insulin Syringe

- Insulin syringe with attached needle for subcutaneous injection
- Highly transparent barrel with high contrast black graduation
- Rubber piston with double sealing ring allows slow operation
- Safe plunger backstop to prevent plunger withdrawal
- Not manufactured with PVC, BPA, Latex and DEHP
- Sterilized by EO or Gamma, non-toxic, non-pyrogenic
- Package: Sterile single packaging by PE bag or blister, bulk
- Certificate: FDA, CE, MDSAP, MHRA, TGA, ISO13485, ISO9001

Size	Gauge	Units per box	Code No. (REF)
0.3ml	27-32G	100/box	ISY003F

MICREAT Plastic Molding, a subsidiary of MICSAFE, founded in 2018, is a professional precise plastic injection mold manufacturer that is engaged in: research, development, production, sales, and service of disposable medical device molds.

MICREAT has an independent research and development team and is equipped with high precision processing equipment and instrument inspection equipment to supply customers with high quality, high efficiency and high mold life of disposable medical equipment. Also, to provide customers one complete plan or one-stop service of molds to help and improve the production of disposable medical equipment.

MICREAT extends a warm welcome to customers to provide samples and drawings to customize all kinds of medical components.
