### Specification

Magnification: 2.5X/ 3.0X/ 3.5X      Interpupillary range: 54-72mm

Adjustable Interpupillary: left and right adjustments simultaneously

Barrels material: **metal**      Frame Material: TR material

Lens Material: A+ grade optical glass material

### Package

Packaging list: magnifiers/cleaning cloth/fixing rope/warranty card/storage bag

### Feature

**[Suitable myopia/ hyperopia one-stop optician service, save time and worry]**

**[Lightweight]** lightweight only 50g, comfort to wear, superior view and depth of field

**[Amblyopia available]** frame lenses can be accurately customized according to customer's optometry sheet.

**[Optical lens]** A+ grade optical glass material, color high fidelity, multilayer coated premium grade light transmittance is over 90%.

**[Excellent optics]** extra large view and depth of view, high clarity and resolution, gives you the freedom to focus on your work.

**[Easy to operate]** left and right adjustments simultaneously interpupillary use for different face, binocular vision easy to fusion, long-lasting without dizziness.

**[Light source]** lamp holder lightweight and compact, weighing only 10g, highlight spotlight uniform light spot, no visible strobe flash, not dazzling, stepless brightness knob regulator, yellow light filter can be added, filter blue light, super long runtime 4/12 hours (optional power supply).

### Titanium frame

magnification	working distance	Field of view	Depth of Field	Weight with frame
2.5X	300-580mm	150-170mm	200mm	42g
3.0X	300-580mm	130-150mm	200mm	46g
3.5X	300-580mm	110-130mm	200mm	50g

# THE KEPLER LOUPES— FDJ-6.0X

## Specification

loupes/Cleaning Cloth/Fixed Rope/Warranty Card/Storage Bag

Interpupillary Range: 54-72mm (adjustable interpupillary)

Working Distance: 280-380mm/ 360-460mm/440-540mm/500-600mm

Barrels material: metal

Lens Material: A grade optical glass material

## Feature

**[Ultra-light Lens]** weighting only 86g , as light as wearing nothing.

**[Excellent Optics]** excellent optical design-the lens adopts A grade imported optical glass, color high fidelity, Multi-layer coated premium grade, light transmittance is over 99%.

**[Wide field of view and depth of field]** providing a wide field of view and depth of field, no blurred at the edges of the circle of vision.

**[Amblyopia available]** provide optometry sheet (myopia glasses/reading glasses) , on e-stop optician service saves time and worry.

**[light source]** lamp holder lightweight and compact, weighing only 10g, highlight spotlight uniform light spot; no visible strobe flash, not dazzling, stepless brightness knob regulator, yellow light filter can be added, filter blue light; super long runtime 4/12 hours(optional power supply).

**[Convenient customization]** provide optometry sheet only

**[Amblyopia available]** provide solutions for myopia glasses/ reading glasses

**[light source]** lamp holder lightweight and compact, weighing only 10g, highlight spotlight uniform light spot, no visible strobe flash, not dazzling, stepless brightness knob regulator, yellow light filter can be added, filter blue light, super long runtime 4/12 hours (optional power supply).

Titanium frame

magnification	working distance	Field of view	Depth of Field	Weight with frame
4.0x	280-380mm	50mm	80mm	85g
4.0x	360-460mm	55mm	80mm	85g
4.0x	440-540mm	60mm	80mm	85g
4.0x	500-600mm	65mm	80mm	85g

# THE ERGO LOUPES

## — TTL-3.5X

### Specification

loupes/Cleaning Cloth/Fixed Rope/Warranty Card/Storage Bag

Interpupillary Range: 54-72mm (adjustable interpupillary)

Working Distance: 280-380mm/ 360-460mm/440-540mm/500-600mm

Barrels material: PC Lens Material: A+ grade optical glass material

### Package

Storage Bag Size: 20\*18\*8cm

Carton Packaging Size: 23\*21\*18cm

Weight: 500g

[suitable for] stomatology, surgery, medical beauty suture thread, organ transplant, etc

### Feature

**[Say goodbye to bowing your head]** Ergonomics design, lightweight, comfort to wear, Say goodbye to bowing your head, reduce cervical fatigue, Extend a doctor's career.

**[Excellent Optics]** Kepler optical design, adopt A+ grade imported optical glass, super max wide field of view and no distortion, long depth of view, gives you the freedom to focus on your work.

**[Reducing eye fatigue]** Parallel field of view observation

Relieve medial rectus muscle tension.

**[Amblyopia available]** provide optometry sheet (myopia glasses/reading glasses), one-stop optician service saves time and worry.

**[light source]** lamp holder lightweight and compact, weighing only 10g, highlight spotlight uniform light spot, no visible strobe flash, not dazzling, stepless brightness knob regulator, yellow light filter can be added, filter blue light, super long runtime 4/12 hours (optional power supply).
